

**Asher Yair Grinberger – Curriculum Vitae
(June 2026)**

E-mail: yair.grinberger@mail.huji.ac.il

Higher Education

- 2008-2011 The Hebrew University of Jerusalem, Department of Geography, B.A., Geography and complementary studies, with a program in Geoinformatics.
- 2011-2012 The Hebrew University of Jerusalem, Department of Geography, M.A., Geography, Planning and Environment, with a specialization in Urban and Regional Planning [direct transition to PhD track after one year of studies].
- 2012-2017 The Hebrew University of Jerusalem, Department of Geography, PhD, Geography, supervisor: Prof. Noam Shoval.
- 2017-2019 Heidelberg University, Germany, Institute of Geography, *Alexander von Humboldt Postdoctoral Fellowship*, host: Prof. Dr. Alexander Zipf.

Appointments

- 2019-2023 Lecturer, Faculty of Social Sciences, Department of Geography
- 2023- Senior Lecturer, Faculty of Social Sciences, Department of Geography
- 2020-2024 B.A. students Advisor, Department of Geography
- 2020-2024 Member of the Teaching Committee, Department of Geography
- 2020- Member of the Computational Geography Committee, Department of Geography
- 2021-2022, 2024- Advisor for the Program in Geoinformatics, Department of Geography, the Hebrew University of Jerusalem
- 2024- Member of the research committee, Faculty of Social Sciences, the Hebrew University of Jerusalem
- 2024- Member of the Eshcol Committee, Faculty of Social Sciences the Hebrew University of Jerusalem

Awards and Fellowships

- 2011-2013 Amiran Fellowship for Outstanding Research Students, MA award, Geography Department, The Hebrew University of Jerusalem, Israel.
- 2013-2017 Hebrew University President 4-year Fellowship, the Hebrew University of Jerusalem, Israel.
- 2013-2017 Amiran Fellowship for Outstanding Research Students, PhD award, Geography Department, The Hebrew University of Jerusalem, Israel.
- 2016 Best PhD Paper Award, The Israeli Geographical Association
- 2017-18 *Fulbright* Post-doctoral Scholar Award, United States-Israel Educational Foundation. This award was not realized due to the choice of Heidelberg as the place for post-doctoral research.
- 2017-2019 *Alexander von-Humboldt* Research Fellowship for Postdoctoral Researchers, Alexander von-Humboldt Foundation.
- 2022 List of outstanding teachers, Social Sciences Faculty, The Hebrew University of Jerusalem

Other academic activity

- 2019 Co-chair, GEOgraphical and CULTtural aspects of Geo-information: Issues and Solutions (GEOCULTGIS), AGILE2019 Workshop, Limassol, Cyprus.
- 2019 Co-chair, scientific committee of the Academic Track, State of the Map 2019, Heidelberg, Germany.

- 2020 Co-chair, scientific committee of the Academic Track, FOSS4G Europe 2020, Valmiera, Latvia.
- 2020 Co-chair, scientific committee of the Academic Track, State of the Map 2020, virtual conference.
- 2021 Guest editor, "Geographical and Cultural Aspects of Geo-Information: Issues and Solutions", special collection of *Transactions in GIS*.
- 2021 Co-chair, scientific committee of the Academic Track, State of the Map 2021, virtual conference.
- 2021 Guest editor, "Papers from FOSS4G Europe 2020", special issue of *Baltic Journal of Modern Computing*.
- 2022 Co-chair, scientific committee of the Academic Track, State of the Map 2022, Florence, Italy.
- 2022 Guest editor, "OpenStreetMap as a Multi-disciplinary Nexus: Perspectives, Practices and Procedures", special issue of *ISPRS International Journal of Geo-Information*.
- 2022- Co-chair, ISPRS Working Group IV/6 – Human Behaviour and Spatial Interactions
- 2023 Co-chair, GeoHB 2023: Geo-spatial computing for understanding human behaviors workshop, ISPRS Geospatial Week 2023, Cairo, Egypt.
- 2023 Co-chair, OSM Science 2023, Antwerp, Belgium.
- 2024 Co-chair, OSM Science 2024, Nairobi, Kenya.
- 2025 Guest editor, "Imagery Analytics for Understanding Human-Urban Infrastructure Interactions", special issue of *ISPRS Journal of Photogrammetry and Remote Sensing*.
- 2025 Co-chair, OSM Science 2025, Manila, Philippines.
- 2025 Co-chair, GeoHB 2025: Geo-spatial computing for understanding human behaviors workshop, Shanghai, China.
- 2026 Co-chair, OSM Science 2026, Paris, France.

Research grants

- 2018-2019 Survey of Israel, "An Algorithm for Identifying the Components of Demand in Local Housing Markets", **A.Y. Grinberger** & D. Felsenstein.
- 2020-2021 Ministry of Science and Technology, Israel, "Agent-Based Simulation of the Spatial Contagion of the Coronavirus in Israeli Cities", **A.Y. Grinberger** & D. Felsenstein.
- 2020-2022 Vice-President Support for Research, HUJI, "An urban agent-based simulation of Covid-19 contagion", **A.Y. Grinberger** & D. Felsenstein.
- 2020-2021 Ring foundation for Atmospheric and Global Studies, "Ecological Modeling of the First Urban Cycle in the Southern Levant", **A.Y. Grinberger** & U Davidovic.
- 2021-2025 University of Toronto – Hebrew University of Jerusalem Research & Training Alliance, "Models of Urban Evolution", **A.Y. Grinberger** & E. Silverman, D. Rotman^{CI}, M. Fox, D. Silver & S. Brail.
- 2021-2022 President Support for Research, "Analysis Frameworks for Innovative Transportation Management" (under the Center for Urban Innovation), **A.Y. Grinberger**.
- 2022-2024 Zelman Cowen Academic Initiatives, "Assessing the Effectiveness of Non-Pharmaceutical Interventions for Spatial Containment of Covid-19 using Urban Simulation and Machine Learning", **A.Y. Grinberger** & D. Felsenstein, A. Voinov, G. Bharathy, F. Taghikhah.

- 2022-2023 The Pinhas Sapir Economic Policy Forum, "Simulating the Effect of Government Assistance to the Business Sector in the Wake of Covid-19", **A.Y. Grinberger** & D. Felsenstein.
- 2023 Social Sciences Faculty research grants, "Identifying spatial organization patterns in cemeteries and their use for identifying cultural processes in the burying society", **A.Y. Grinberger**.
- 2024-2025 Archimedes Center, "Leveraging machine-learning techniques to enhance the robustness of agent-based models", **A.Y. Grinberger**.
- 2024-2028 Israel Science Foundation, "The effects of corporate engagement on collective intelligence in OpenStreetMap", **A.Y. Grinberger**.
- 2024-2025 Digital Infrastructure Insights Fund (Ford Foundation & Sloan Foundation), "Impacts of corporate editors on collective intelligence in OpenStreetMap", **A.Y. Grinberger**.
- 2024-2026 Ministry of Innovation, Science & Technology, "A simulation-based urban dashboard for improving municipal preparedness to earthquakes", **A.Y. Grinberger** & D. Felsenstein.

Teaching at the Hebrew University

Master's degree students:

- 2019-2020 Shira Zilbertal, Identifying Local Housing Markets, co-supervisor: Prof. Daniel Felsenstein.
- 2021-2023 Amir Cahal, An Agent-Based Simulation of Urban Covid-19 Contagion Patterns, co-supervisor: Prof. Daniel Felsenstein.
- 2021-2024 Inbar Misgav Ben-Yair, Identifying Spatial Organization Patterns in Cemeteries and Using them to Uncover Cultural Processes in Burying Society.
- 2021-2024 Amir Muszkat Barkan, Dynamic Agent Based Modelling of Major Supply Side Intervention to the Jerusalem Central Business District, co-supervisor: Prof. Felsenstein.
- 2022-2025 Lidor Cohen, Exploring the Long-Term Effects of School Choice Policies on Segregation: An Agent-Based Model Approach.
- 2022-2025 Laila Hammoudeh. Agent-Based Modelling of Accessibility and Mobility-Oriented Bus Services: Evaluating the Impact on Reliability and Flexibility with Dedicated Public Transport Lanes.
- 2023-2024 Yotam Braun, Optimization of dynamic networks of urban public transportation, co-supervisor: Prof. Yaacov Ritov.
- 2023-2024 Yodaft Bar-Shalom, How do passenger and trip attributes affect the number of complaints on a bus line: A case study of the Jerusalem metropolitan area. co-supervisor: Prof. Sigal Kaplan.
- 2023-2025 Gal Danoch. How do ethnic and socio-economic spatial properties affect the relation between urban morphology and spatial patterns of violence?
- 2024-2025 Roman Pinkhasov, An Agent-Based Model of the Long-Term Urban Impacts of a Continuous Missile Attack, co-supervisor: Prof. Daniel Felsenstein.
- 2024-2025 Michael Drogochinsky, Space-Time Allocation Patterns within Daily Behaviors.
- 2024- Nimrod Korman, Differences in Access to Public Land Use in Ethnically Mixed Cities, co-supervisor: Dr. Nufar Avni.
- 2025- Allison Siegal, TBD, co-supervisor: Prof. Daniel Felsenstein.

Doctoral degree students:

- 2023- Adi Cohen, TBD, co-supervisors: Prof. Itay Fischhendler, Prof. Ayal Kimhi.
- 2024- Igal Baum, Economic Ideologies, Location-Based Services, and Disengagement from Reality, co-supervisor: Prof. Daniel Felsenstein.
- 2025- Roman Pinkhasov, TBD, co-supervisor: Prof. Daniel Felsenstein.

2026- Inbar Ben-Yair Misgav, TBD, co-supervisor: Prof. Noam Shoval.

Post-doctoral fellows and visitors

Dr. Yaara Rosner-Manor, 2020-2022, co-supervisors: Prof. Daniel Silver, Prof. Mark Fox.

***Serving in a tenure track position at Sami Shamoon College**

Dr. Noga Keidar, 2022-2024, co-supervisors: Dr. Emily Silverman, Prof. Daniel Silver. *** Serving in a tenure track position at Tel Aviv University**

Dr. Maisa Totry Fahouri, 2025, co-supervisors: Dr. Emily Silverman, Prof. Daniel Silver. *** Secured a tenure track position at Ben Gurion University**

Dr. Alon Sagi, 2025, co-supervisor: Dr. Adi Weidenfeld.

Courses taught (since last promotion):

Geoinformatics B, BA course

Urban simulation, MA course (open to BA students)

Introduction to geospatial data science, MA course (open to BA students)

Analyzing human spatial activity using digital data, MA course (open to BA students)

Social aspects of GIS: Theory and practice, MA course

Geoinformatics and geographical information science, MA course

Introduction to spatial statistics, MA course (open to BA students)

Spatial computing in Python, MA course (open to BA students)

List of Publications

Doctoral dissertation:

- 1) An Integrative Model of Time-Space Behavior, supervisor: Prof. Noam Shoval, 2017, unpublished dissertation.

Chapters in collections:

- 2) Felsenstein, D., Ashbel, A., Lichter, M., & **Grinberger, Y.** (2013). Land use-land cover dynamics at the metropolitan fringe. In D. Malkinson, D. Czamanski & I. Benenson (Eds.) *Modeling of land-use and ecological dynamics* (pp. 143-165). Springer: Berlin-Heidelberg.
- 3) **Grinberger, A.Y.**, Lichter, M., & Felsenstein, D. (2015). Simulating urban resilience: disasters, dynamics and (synthetic) data. In S. Geertman, J. Stillwell, J. Ferreira & R. Goodspeed (Eds.) *Planning support systems and smart cities* (pp. 99-119). Springer: Cham.
- 4) **Grinberger, A.Y.**¹, & Felsenstein, D.¹ (2017). A tale of two earthquakes: Dynamic agent-based simulation of urban resilience. In J. Lombard, E. Stern & G. Clarke (Eds.) *Applied spatial modeling and planning* (pp. 134-154). Routledge: Abingdon & New York.
- 5) **Grinberger, A.Y.**, Lichter, M., & Felsenstein, D. (2017). Dynamic agent based simulation of an urban disaster using synthetic big data. In P. Thakuria, N. Tilahun & M. Zellner (Eds.) *Seeing cities through big data: Theory methods and applications in urban informatics* (pp. 349-382). Springer: Cham.
- 6) **Grinberger, A.Y.**, & Felsenstein, D. (2017). Using big (synthetic) data to identify local housing market attributes. In L.A. Schintler & Z. Chen (Eds.) *Big data for urban & regional science* (pp. 109-120). Routledge: Abingdon & New York.
- 7) Birenboim, A., **Grinberger, A.Y.**, Novelli, E.M., & Jonassaint, C.R. (2018). Daily monitoring of mobility as indicator of wellbeing among individuals with chronic disease. In M. Friman, D. Ettema & L. E. Olsson (Eds.) *Quality of life and daily travel (Best practices)* (pp. 219-234). Springer: Cham.
- 8) **Grinberger, A.Y.**, Felsenstein, D., & Samuels, P. (2019). Emerging urban dynamics and labor market change: An agent-based simulation of recovery from a disaster. In K. Borsekova & P. Nijkamp (Eds.) *Resilience and Urban Disasters* (pp. 232-256). Edward Elgar: Cheltenham.

- 9) Noskov, A., **Grinberger, A.Y.**, Papapessio, N., Rousell, A., Troilo, R., & Zipf, A. (2019). Modelling and Assessing Spatial Big Data: Uses Cases of the OpenStreetMap Full-History Dump. In A. Voghera & L. La Riccia (Eds.) *Spatial Planning in the Big Data Revolution* (pp. 16-44). IGI Global.
- 10) Mooney, P., **Grinberger, A. Y.**, Minghini, M., Coetzee, S., Juhász, L., & Yeboah, G. (2021). OpenStreetMap data use cases during the early months of the COVID-19 pandemic. In A. Rajabifard, D. Paez, & G. Foliente (Eds.) *COVID-19 Pandemic, Geospatial Information, and Community Resilience* (pp. 171-186). CRC Press: Boca Raton.
- 11) Lin, Z. H., **Grinberger, A. Y.**, & Felsenstein, D. (2025). Simulating Covid-19 contagion patterns using a machine-learning augmented agent-based model. In Kopczewska, K., Czamanski, D., & Broitman, D. (eds.) *Handbook on Big Data, Artificial Intelligence, and Cities* (327-348). Edward Elgar.

- 12) Lin, Z. H., **Grinberger, A. Y.**, & Felsenstein, D. (2026). Trajectory Generation using Profile-Specific Transition Matrices. In: Huang, H., & Van de Weghe, N. (eds.) *Proceedings of the 1st International Conference on Geospatial Artificial Intelligence (GeoAI 2026) – Oral Presentation Papers*. Zenodo: Ghent, Belgium.

Invited Lectures:

- 1) Simulating an urban disaster using synthetic big data, January 2014. Geography Department Seminar, Jerusalem, Israel.
- 2) The identification of geographic activity contexts: Considering behavioral effects, April 2017, GIS Colloquium, Institute of Geography, Heidelberg University, Heidelberg, Germany.
- 3) Extracting Knowledge on Urban Dynamics from Geo-Spatial Data: Approaching the 'Why; Question', October 2018, Warwick Institute for the Science of Cities Seminar Series, Coventry, UK.
- 4) Geographical Knowledge Extraction from Spatial Data: Broadening the Epistemological Base, November 2018, UCSB Geography Colloquium, Santa Barbara, USA.
- 5) The role of organized activity in the production of volunteered geographic information: The case of large-scale events in OpenStreetMap, January 2021, Department Seminar, Department of Geography, Bar Ilan University.
- 6) Measuring Cultural Diversity among Bedouin Communities by Analyzing Settlement Spatial Signatures, May 2024, The Urban Innovation Center seminar, The Urban Innovation Center, the Hebrew University of Jerusalem.
- 7) Geo-cultural informatics: Bridging meaning and measurement in spatial cultures, November 2025, College of Surveying and Geoinformatics, Tongji University, Shanghai, China.

Participation in Scientific Conferences:

- 1) Vulnerable and resilient cities: Modeling the response to urban disasters, February 2012, The meeting of the Israeli Regional Science Association Section, Rehovot, Israel, oral presentation.
- 2) Urban recovery following unpredicted events: A dynamic simulation using an agent-based model, December 2012, 53rd annual conference of the Israeli Geographical Association, Beer Sheva, Israel, oral presentation.
- 3) Behavior in time and space of visitors to JNF's forest parks: The case of the Canada-Ayalon park, December 2012, 53rd annual conference of the Israeli Geographical Association, Beer Sheva, Israel, oral presentation.
- 4) Can a city recover from a natural disaster? A simulation-based analysis, January 2013, the meeting of the Israeli Regional Science Association Section, Beer Sheva, Israel, oral presentation.

- 5) Characterizing tourists' time-space consumption: Analysis of GPS data using GIS tools, February 2013, the meeting of the Forum of Israeli Tourism Researchers, Kinneret College on the Sea of Galilee, Israel, oral presentation.
- 6) Can cities bounce back? Dynamic agent based simulation of urban resilience, June 2013, the IGU Conference 2013: Applied GIS and Spatial Modeling, Leeds, UK, oral presentation.
- 7) Bouncing-back or bouncing-forward? A simulation of policy impacts on urban resilience after an earthquake, December 2013, the 54th annual conference of the Israeli Geographical Association, Bar Ilan University, Israel, oral presentation.
- 8) From prism to path: A new approach for time-space behavior analysis using GPS & GIS, December 2013, the 54th annual conference of the Israeli Geographical Association, Bar Ilan University, Israel, oral presentation.
- 9) Incorporating dynamic pricing in agent based simulation: The case of an earthquake in Tel Aviv, January 2014, the meeting of the Israeli Regional Science Association Section, Carmiel, Israel, oral presentation.
- 10) Planning interventions in the wake of an urban disaster – estimation by simulation, February 2014, the Israel Planners Association meeting, Jerusalem, Israel, oral presentation.
- 11) A dynamic simulation tool for urban disasters, May 2014, DesUrbs dissemination event, Jerusalem, Israel, oral presentation.
- 12) A temporal-contextual analysis of urban dynamics using location-based data, July 2014, Mobile Tartu 2014, Tartu, Estonia, oral presentation.
- 13) Dynamic agent-based simulation of an urban disaster using synthetic big data, August 2014, the NSF Big Data and Urban Informatics workshop, Chicago, IL, oral presentation.
- 14) Incorporating dynamic pricing in agent based simulation: The case of an earthquake in Jerusalem's center, December 2014, the 55th annual conference of the Israeli Geographical Association, Haifa, Israel, oral presentation.
- 15) Estimating high-resolution urban dynamics by the integration of big spatial data and micro-simulation, February 2015, the meeting of the Israeli Regional Science Association Section, Haifa, Israel, oral presentation.
- 16) Using web-based planning aids for urban resilience – the case of an earthquake in Jerusalem, February 2015, the Israel Planners Association meeting, Beer Sheva, Israel, oral presentation.
- 17) Simulating urban resilience: Disasters, dynamics and (synthetic) data, July 2015, CUPUM 2015, Boston, MA, oral presentation.
- 18) Incorporating market based mechanisms into an agent-based simulation: The case of an earthquake in Tel Aviv, December 2015, the 56th annual conference of the Israeli Geographical Association, Jerusalem, Israel, oral presentation.
- 19) Automatically identifying Local Housing Markets, February 2016, the meeting of the Israeli Regional Science Association Section, Tel Aviv, Israel, oral presentation.
- 20) Dynamic agent-based simulation of welfare effects of urban disasters, February 2016, the meeting of the Israeli Regional Science Association Section, Tel Aviv, Israel, oral presentation.
- 21) Long term dynamics of urban resilience: The case of labor markets following a disaster, December 2016, the 57th annual conference of the Israeli Geographical Association, Tel Aviv, Israel, oral presentation.
- 22) Medium term dynamics of urban resilience: The case of the labor market after an earthquake, February 2017, the Modeling Urban Resilience in the Aftermath of the Haifa Fire workshop, Jerusalem, Israel, oral presentation.

- 23) Considering spatial cognition in the identification of geographic activity contexts, April 2017, the annual meeting of the Association of American Geographers, Boston, MA, oral presentation.
- 24) Integrating geographical concepts into the study of digital spatial data, May 2018, the IRS Spring Academy 2018: Virtuality and Socio-Materiality, Erkner, Germany, oral presentation.
- 25) Identifying the Effects of Mobility Domains on VGI: Towards an Analytical Approach, June 2018, the AGILE'18 VGI-ALIVE pre-conference workshop, Lund, Sweden, oral presentation.
- 26) The Institutional contexts of volunteered geographical information: A quantitative exploration of OpenStreetMap data, June 2019, the AGILE'19 GeoCultGIS pre-conference workshop, Limassol, Cyprus, oral presentation.
- 27) Analyzing the spatio-temporal patterns and impacts of large-scale data production events in OpenStreetMap, September 2019, the Academic Track, State of the Map 2019, Heidelberg, Germany, oral presentation.
- 28) Bridging the Map? Exploring interactions between academic and mapping communities in OpenStreetMap, September 2019, the Academic Track, State of the Map 2019, Heidelberg, Germany, oral presentation.
- 29) Synthetic Big Data as a tool for understanding urban dynamics following a disaster, December 2019, the 2019 Israeli Geographical Association meeting, oral presentation.
- 30) Producing geographical knowledge on spatial activity in the Big Data era: The role of geographical theory in data-driven research, December 2019, the 2019 Israeli Geographical Association meeting, oral presentation.
- 31) An analysis of the spatio-temporal patterns and impacts of large-scale data production events in OpenStreetMap, February 2020, the 2020 Israeli Regional Science Association meeting, oral presentation.
- 32) The effects of organized activity on data, contributors, and the project in OpenStreetMap, December 2021, the 2021 Israeli Geographical Association meeting, oral presentation.
- 33) Energy signature as a social litmus paper, December 2021, the 2021 Israeli Geographical Association meeting oral presentation.
- 34) An agent-based simulation of the effects of non-pharmaceutical interventions on Covid-19 contagion in cities, February 2022, the 2022 Israeli Regional Science Association Meeting oral presentation.
- 35) An agent-based model of lockdown impacts on Covid-19 contagion in cities, December 2022, the 2022 Israeli Geographical Association meeting, oral presentation.
- 36) A time-space analysis of rooftop photovoltaic installations, January 2024, The Israel Energy and Business Conference, invited presentation.
- 37) Optimizing dynamic public transportation networks via a pragmatic application of genetic algorithms, April 2024, the 2024 Israeli Regional Science Association Meeting, oral presentation
- 38) Integrating machine learning techniques into agent-based models: a demonstration for an urban epidemiological model, April 2024, the 2024 Israeli Regional Science Association Meeting, oral presentation
- 39) The internal order of self-emergent built environments: the case of Bedouin villages in the Negev/Naqeb, Israel, July 2024, the 36th annual AESOP congress, oral presentation.
- 40) What happens when VGI is threatened? An analysis of the events behind the introduction of rate limiting in OpenStreetMap, September 2024, OSM Science 2024, oral presentation.
- 41) A time-space analysis of rooftop photovoltaic installations, September 2024, Greentech 2024, invited presentation.
- 42) Enhancing Urban Trajectory Generation using Graph Neural Networks and Inverse Reinforcement Learning, February 2025, the 2025 Israeli Regional Science Association Meeting, oral presentation

- 43) Beyond Chaos: Spatial Codes and the Complexity of Informal Settlement Patterns, July 2025, Cities and Complexity in Israel: Towards the Second Quarter of the 21st Century, oral presentation.
- 44) Enhancing Urban Trajectory Generation using Graph Neural Networks and Inverse Reinforcement Learning, November 2025, GeoHB 2025: 2nd International Workshop on Geo-spatial Computing for Understanding Human Behavior, oral presentation.
- 45) Uncovering Resource Allocation Considerations and Environmental Effects driving Daily Mobility Patterns: A Time Geographic Analysis of the Tel Aviv and Jerusalem Travel Surveys, November 2025, GeoHB 2025: 2nd International Workshop on Geo-spatial Computing for Understanding Human Behavior, oral presentation.
- 46) The context-dependent impacts of urban school choice policy on segregation: Using an agent-based model to assess sensitivities to initial urban demographic conditions, February 2026, the 2026 Israeli Regional Science Association Meeting, oral presentation.
- 47) A Profile-based Approach for Enhancing the Integration of Inverse Reinforcement Learning and Urban Agent Based Models, February 2026, the 2026 Israeli Regional Science Association Meeting, oral presentation.
- 48) Trajectory Generation using Profile-Specific Transition Matrices, May 2026, GeoAI 2026, oral presentation.
